

AAUDAZ MARITIME

APRIL-MAY-JUNE UPDATES

April 2020 VESSEL CONDITION SURVEYS

Professional Oil tanker condition assessment for clients, being conducted at Singapore. Detailed vessel analysis with suggested upgrades.

May 2020 WASTE OIL AND SLUDGE RECEPTION AND DISPOSAL IN COCHIN

We now offer collection & disposal of tank washings and sludge at an approved facility at Cochin. Additionally, Gasoil can also be supplied for tank cleaning and flushing. Well -coordinated & streamlined operations at outer anchorage in Cochin ensure a quick port turnaround. In the most recent case, 600cbm of tank washing was discharged and gasoil supplied for tank cleaning ,within 12 hours. Operations are approved by the port and vessel is cleared in/out as usual.

June 2020 BUNKER FUEL INVESTIGATIVE ANALYSIS AND QUANTITY SURVEY ATTENDANCE

Audaz offers a worldwide network of well qualified surveyors. We have concluded bunker surveys in over 45 countries, maintaining highest survey standards and competitive pricing.

HULL INSPECTION

We have expanded our hull inspection and underwater cleaning network over time. Having initiated this service in Singapore late last year, we have extended our underwater operations to Rotterdam, Panama and Brazil. Our network of providers are approved by most Classification societies ,offering professional and competitive service standards synonymous with the AAUDAZ name.
